To Whom it May Concern:

When I first encountered Bianca Orozco it was in an interview for a classified position at TUHS. In that interview she impressed me with her maturity and poise. As the school year went on we had an occasion to need a long term substitute position in our math department. Bianca immediately came to mind as I recalled her math background that she had shared. Bianca stepped in to not only one long term math substitute position, but two by the end of the school year. In both instances, she had a clear command of the subject matter and content whether it was Algebra or Math Analysis. As the year went on, Bianca began to refine the art of teaching as well. I am excited for Bianca's future in education. I think she has a lot of potential and enthusiasm for a subject in high demand and requiring an infinite amount of patience. Please contact me with any questions.

Sincerely,

Mary Alice Finn

Principal

Taft Union High School
